

Independent Study- General Evaluation Content, Technique & Style

<p>Planning & Execution</p> <p>For example:</p> <ul style="list-style-type: none"> • Camera work is clear, in focus, and smooth. • The editing shows a strong understanding of filmmaking. • Animation/ motion graphic displays research, development (trial & error) and software knowledge. 	-1-2-3-4-
<p>Presentation- Shared Knowledge & Learning</p> <ul style="list-style-type: none"> • A big part of your I.S. will be to share your knowledge and learning with current and future students. • You will decide how to share this information since this is a self-directed project. • Your primary question should be what format will I share my knowledge in? (a slide presentation, video tutorials or a web page) • You may do something to promote the school such as: a presentation in the community, a slideshow illustrating events & classes, or an animated projection. 	-1-2-3-4-
<p>Content (Theme)</p> <p>For example:</p> <ul style="list-style-type: none"> • A strong examination of a message (or subject matter) is apparent. • Images and storyline (or informational content) engage the audience. • Themes and/ or mood (design, branding, storytelling, or film) have been explored. 	-1-2-3-4-
<p>Technical</p> <p>For example:</p> <ul style="list-style-type: none"> • Music and sound effects enhance the content of the production. • The project successfully mimics techniques such as lighting, camera movement, shot angles, and composition. • Coding has been used effectively for web or game development. • Excellent use of software and independent research techniques (tutorials) have been demonstrated. • The final product demonstrates creativity, knowledge exploration, and a desire to learn. 	-1-2-3-4-
