Independent Study- General Evaluation
Content, Technique & Style

Planning & Execution For example: • Camera work is clear, in focus, and smooth • The editing shows a strong understanding of filmmaking. • Animation/ motion graphic displays research, development (trial & error) and software knowledge	-1-2-3-4-
Presentation- Shared Knowledge & Learning • A big part of your I.S. will be to share your knowledge and learning with current and future students • You will decide how to share this information since this is a self-directed project • Your primary question should be what format will I share my knowledge in? (a slide presentation, video tutorials or a web page)	-1-2-3-4-
Content (Theme) • A strong examination of the subject matter is apparent. • Images and storyline engage the audience. • Themes and/ or mood have been explored.	-1-2-3-4-
Technical For example: • Music and sound effects enhance the content of the production. • The project successfully mimics techniques such as lighting, camera movement, shot angles, and composition. • Coding has been used effectively for web or game development	-1-2-3-4-
